---

LaDonna,

This morning Lydia told me that you are this Region's contact person with the Las Vegas photo facility. Please advise me, by email, if you can arrange to obtain historical aerial photos, 1960 through 2008, of a certain area that is located west of Houston where Interstate 10 crosses over the San Jacinto River. The below aerial photo illustrates the area of interest:

200814628Proof.jpg

The particular areas of interest areas in the above picture area:

1. Area A.
2. Area B.
3. From area A to east shoreline of the San Jacinto River.
4. From area A to the "C" shaped island located north of area A.

The above photo came from [Squire Haskins Photography](#) (HP) in Houston, The HP representative told me that some, if not all, of their pictures taken since 1988 are high resolution that allow zooming in on particular areas of the picture.
